

The HVO Silver Fund

For the past 25 years, HVO has been quietly transforming lives, empowering health care providers and contributing, one volunteer at a time, to a healthier world. As part of HVO's 25th anniversary observances, the HVO Board of Directors has established the HVO Silver Fund.

The purpose of this fund is, quite simply, to **strengthen HVO's ability to meet new challenges and to respond to new opportunities in the coming years**. In today's rapidly evolving world of technology, there are new ways of communicating and sharing information and knowledge that are coming online constantly. There are increasing requests for our programs around the world, as well as interesting opportunities to partner with other organizations and universities.

As HVO heads into its third decade of programs, the HVO Silver Fund will give us the

- flexibility to incorporate new ways of delivering our educational programs ,
- ability to expand the number of sites to meet ever-growing requests for support;
- capability to develop new partnerships that will strengthen HVO's ability to deliver effective programs;
- capability to consider unique requests for support

Gifts of any amount to the HVO Silver Fund are welcome. Donors interested in making a larger commitment will have the option of pledging their gift over a three year period.

Suggested amounts:

- \$25
- \$250
- \$2500
- \$25,000

For information about making a pledge, please contact Nancy Kelly, HVO Executive Director at giving@hvousa.org
